## **Treatment Effectiveness Assessment (TEA)**

The TEA asks you, the client, to express the extent of changes for the better from your involvement in the program to this point (or how things are if it's your first TEA or baseline) in four areas: substance use, health, lifestyle, and community. For each area, think about how things have become better and circle the results on the scale below: the more you have improved, the higher the number – from 1 (not better at all) to 10 (very much better). In each area write down the one or two changes most important to you in the Remarks section.

Client Name:						Client ID#:					First TEA?  Yes  No	
1. Substance use: How much better are you with drug and alcohol use? Consider the frequency and amount of use, money												
spent on drugs, amount of drug craving, time spent being loaded, being sick, in trouble and in other drug-using activities, etc.												
		None or not much				Better				Much better
