Description

This two-part training is an interactive, skills-based training that will begin with a brief overview of the ASAM criteria and a cross-walk between the levels of care articulated in the ASAM criteria and the levels of care defined by the DMC-ODS Waiver. Following this brief review, the presenter will focus the remaining portion of the training on a detailed review of the four progress note formats approved for use in clinical files by SAPC, which are: (1) SOAP (Subjective, Objective, Assessment, and Plan); (2) GIRP (Goals, Intervention, Response, and Plan); (3) SIRP (Situation, Intervention, Response, and Progress); and (4) BIRP (Behavior, Intervention, Response, and Plan), followed by instruction on how to develop a comprehensive, individualized treatment plan.

Attending Part I and Part II of the ASAM-B Criteria webinar training is required to receive a certificate of attendance.

No CEs will be offered.

Completion of ASAM-B Criteria training qualifies participants to advance to the ASAM-C Criteria training within the ASAM Series.

Visit our website for a description of the [training we offer](#).

You can also visit our [registration website](#) to see all training that is currently open for registration.

*You may also register for and complete this webinar as an e-learning recorded session after February 6, 2018. Please email Sheron Wright at email address below to request a certificate of completion if you complete the training after February 6, 2018.
